# Ride-Away® VetsMobileOps\* Program

## An Adaptive Equipment Maintenance Program Honoring Our Disabled Veterans

You may know the Veterans Administration (VA) will fund your automotive adaptive equipment and cover any repairs, but, do you know they do not cover any operational maintenance?

In appreciation of the great sacrifices made by the men and women of our armed services, Ride-Away wants to ensure that every disabled American veteran has the safest and most reliable modified equipment possible. That's why Ride-Away provides **FREE** operational maintenance on all vehicle modifications and automotive adaptive equipment for any disabled American veteran, with the VetsMobileOps Program.

## VetsMobileOps Benefits

Every six months, you may take advantage of the VetsMobileOps Program by bringing your VA funded modified vehicle in to any one of Ride-Away's locations. Your **FREE** accessibility and maintenance check-up will include:

- An inspection of your adaptive equipment
- Cleaning of your adaptive equipment
- Lubricating any parts *(if necessary)*
- Adjusting any parts *(if necessary)*

Upon completion, you will receive a detailed operational maintenance report. This report will contain a description of the work performed and a list of any items that may require future attention.

To schedule your VetsMobileOps appointment, please call 888-Ride-Away today and let us say "thank you" for all you've done for our country!

\* It is NOT necessary for your VA funded adaptive equipment to have originally been purchased from Ride-Away.
