

Dear Dave,

My motto Richard has always been "There's no quit in Kattai" and I can only say how very grateful I am there's also no quit in Dave and Matt! You never gave up that we would one day be successful in navigating through all of the VA procedures in eventually securing the assistance in obtaining a wheel-chair accessible van that Richard certainly deserves.

I think I have completed all the follow-up requirements - getting the registration, inspection, insurance, and meeting with Anne at the VA.

Yesterday (Sunday) we enjoyed a wonderful excursion to Ft Devens where Richard served as Commander for 34 years. Even though there are many changes, he still recognized many landmarks, including the War Memorial which he had built and dedicated; some trees that he had planted, etc. Without the van, I probably wouldn't have felt confident enough to get him there by myself. No question about Ride-Away providing us a very important aspect of freedom that we no longer had.

Wednesday night we're looking forward to attending the school play with our grandson having a significant role! Can't wait to watch him shine.

I just can't thank you enough for all you have done for Richard and me. And I wish you continued success in your business that makes such a significant contribution to a person's quality of life.

Sincerely,
Daryl K.
