

To whom it may concern:

Our son Mike has been at the VA Hospital SCI Unit since February. In November our son was well enough to make a trip home for the weekend. At that time we met Jennifer Tracey with Ride A Way. She has been a blessing to our family always going out of her way, staying late to make sure all things come together so we can get a van. she has went above and beyond to meet our needs so that we could always get a van so Mike could come home on the weekends. After the first weekend we realized we needed to purchase a van, so we talked to Jennifer about buying one. she told us she could help us with that and she did. we are very happy with the van that was purchased. Jennifer is a real asset to the VA Hospital helping handicap patients. we always enjoy seeing her she is always welcome to visit mike at the hospital for as long as he is there, She really enjoys helping everyone at the VA and is very good at what she does, very efficient and always looking out for the patient best interest in every way. We have enjoyed meeting her and continue to refer her to others at the hospital. Thanks to Jennifer for a job well done.

Sincerely,

Mike & Waynette D

The image shows two handwritten signatures in black ink. The top signature is a cursive signature that appears to read "Waynette D" followed by a flourish. The bottom signature is a shorter, more stylized cursive signature that appears to read "Mike".
