

Dear Roger,

I am writing this to you to thank you for the wonderful job that you have done on my vehicle. Its people like you who make a difference for people with a disability. You went above and beyond to get every thing done for me and that I am very grateful. You have made it possible in an impossible situation with N.M.V. For without you doing the work on my vehicle I would of been stuck in an impossible situation so thank you so very much for every-thing that you have worked on so that you made it possible for me to take this test that I have to take. You went out of your way, plus doing the extra work. You made sure that I was going to be safe on the road. So thank you very, very much

Sue K
