

To Mr. Paul,

I want to thank you for all you have done for my husband. There [aren't] too many people [who] would take the time out to do what do. I know you would [probably say] this is your job. But it [may] be just God [gave] you the strength to do what you do for him & other[s]. I know that my husband is so grateful to have someone like you to help him in the time of need. May the Lord above look down on you and your family and always bless you & your[s]. I just want to say thank you again for being the wonderful person you are and I want you to always remember that we never know who we need but if you ever need the Jones Family please remember we will be there for you.

Thank[s]
