Suite 100-150
Norristown, PA 19403

Dear Jon,

Thank you for taking the time in your busy schedule to allow the graduate level Occupational Therapy students in OT 502 Function and Technology, to visit your facility on Saturday

It is one thing to talk about the adaptations that can be made to a vehicle to give someone independence and quite another to be able to see and touch these adaptations; the learning opportunity met all of my expectations. If you get a chance; please extend our thanks to Wayne, who really brought the lessons to life.

Thank you for sharing your enthusiasm for meeting clients needs with the students. I look forward to future opportunities for collaborations.

Sincerely,

Neil H. P.
Occupational Therapy Program
