Norfolk, VA 23510

To my friends at Ride-Away,

Thank you for all the help you have given us during the temporary loss of our modified van. After our daughter accidentally parked the van into the side of our garage (see attached picture), we were in serious need of alternate transportation. Help, it seems, was only one phone call away. After explaining our situation to Mike Sparks, he was able to locate and deliver an accessible vehicle for us to use.

Mike and his staff have always been there for us. Our calls are always answered with Patricia's cheerful greeting! The shop technicians are quite knowledgeable yet still have time to listen to and discuss many issues that arise during the extreme modification process required to allow me to drive. It is, and I am sure will continue to be a pleasure to work with you all.

Sincerely,

Joe K.
