

I am a close friend of the Thomas family and cannot thank you and your organization enough from the bottom of my heart for taking an interest and supporting our troops and their families the way you have. I know this donation that you have made is one of the most wonderful things that could have been given to the Thomas' other than their son's health. God bless you and your organization and all you are doing for others.

We appreciate you so much - my girls were raised with the Thomas boys their oldest son and they are such special people dear to our hearts. I was even in their wedding - our families go way back to even our childhood. I cannot tell you how much of a burden you have lifted off of their shoulders.

Our whole community is just blessed that people in Florida are so caring and doing what we cannot do from here in Texas. We would all be there if we could, but that is just not possible.

Thank you again more than you could ever know.

Beverly G
